SUMMER HOMEWORK

MUSIC

Dear Parent,

The purpose of the Summer Homework in performing arts is to provide students with **an enjoyable opportunity** to channelise their minds and energy creatively. While they listen to music or watch a movie with a specific objective in mind, they are going to be engaged in a productive manner.

We also would like to invite you to **be a part of your child's learning by participating in the homework activity**. When you facilitate and do the activities with them, the experience would be far more enriching for the children ensuring maximum impact. Moreover, **arts would help you de-stress too!** As the activities are creative in nature, please encourage the child to practice as per their mood. We are looking for efforts, practice, and not perfection.

Process

- Go through the homework and perform the activities.
- In Grade 1 and 2, help the children divide the task. For example, if a song needs to be sung on karaoke, assign the first week for one stanza, the second week for the second stanza, so on and so forth.
- It is mandatory for every student to record the videos as assigned in the document.
- Encourage the students to submit their homework on time.
- Upload the homework under the "Homework tab" from the student's portal.
- Please ensure that the format of the video is in either MP3 or MP4 format.
-

In vacations, the learning does not stop. It only shifts from schools to homes. :)
